OPEN SKY

EAU DE PARFUM

BYREDO

Open Sky a limited-edition fragrance that celebrates the in between

Exploring the void between departure and destination.

"While being stuck in one place, our memories have become particularly vivid—and what I remember most often is travel. Beyond the physicality of spaces, that idea of movement—of journeys, of being on your way somewhere—is something I truly miss. The void that exists in between places: I wanted to capture that."

— Ben Gorham, Creative Director & Founder, Byredo

Created during a time when the world was grounded, Open Sky presents a metaphysical homage to the experience of travel: a distillation of the journey itself, charged with anticipation. Exploring the void between departure and destination, and the abstract allure of an infinite horizon, this is a fragrance that exists neither here nor there—but instead celebrates the in between.

Through vibrant pomelo veiled in hemp leaves, the electricity of expectation is elevated anew. A seductive undercurrent—the spice of black pepper, the woody romance of palo santo, the heady allure of vetiver—offers a transcendent dimensionality to the refreshing realm of citrus. A limited-edition, boundless blend created to evoke limitless possibilities.

OPEN SKY

Pomelo, Black Pepper
Hemp Leaves
Palo Santo, Vetiver
