

Autumn - Winter 2025

This winter's limited editions are a tribute to the spirit of the woods, a fairytale universe where the animal and spiritual worlds collide. These editions pay tribute to great mansions nestled in the forests, influenced by the medieval and gothic architecture of Cistercian abbeys.

Our expertise shines through our designs and fragrances to tell the story of a winter where decoration and daydreaming come together in harmony. Our talented glass craftsmen open the first act of this season with the **Woods** collection, available in candles and 2 l and 5 l Totem fragrance diffusers, named after mythical forests such as **Brocéliande**, **Risoud** and **Sherwood**.

We've also reissued a collection, hand-engraved in our workshops: the **Heritage** collection, named after the great abbeys of **Cernay**, **Villers** and **Fontenay**, with fragrances that welcome contemplation and introspection.

Ceramics are also reinvented this winter, with the **Brame** collection featuring an antler design delicately molded into the material. Three glaze colors with evocative names - **Cernunnos**, **Sylvanus** and **Artemis** - recall mythological tales and their magic.

Inspired by the reopening of Notre-Dame de Paris, we pay homage to cathedral architecture with the **Céleste** collection, in which scented candles and diffusers are covered with a silk-screened print in a gothic blue, red and gold design.

In the same spirit, our **Rosace** screen-printed Holiday candle is adorned with a decoration inspired by cathedrals' stained-glass windows and Ferris wheels, which shine bright in the heart of this Gothic architecture.

The art of sublimation is celebrated with a special edition of **Sacred Trees**, with three new colors that will remain permanently in our collection. Scented candles and fragrance diffusers, bearing the effigy of the magic tree designed by Uniwax artists, will carry the names of the places where we support the Cœur Vert foundation in its reforestation program: **Touba**, **Boukani** and **Mankono**.

The art of gifting begins with a mini Holiday trio, presented in a playful box featuring the decorations of our **Afrika**, **Caravane** and now **Rosace** Holiday candles. It continues by highlighting our permanent collections, with a trio set of our best-sellers: **Black Pearls**, **White Pearls** and **Coral Pearls**, as well as a duo set of **Platinum** and **Aurum**.

The **My First Baobab** family expands with the return, in small format, of the **Marrakech** candle and fragrance diffuser. An elegant way to celebrate the holidays with beautifully decorated gift boxes.

We haven't forgotten those who love the snowy slopes, with a new decor for the **I Love Ski** screen-printed candle, illustrated with retro Swiss chalets.

We also present a unique collaboration with the **Maison Pierre Marcolini**, celebrating its 30th anniversary, and the creation of three candles with essences inspired by the exceptional terroirs where cocoa beans are harvested.

Objects and fragrances come together in these winter collections, staged in front of **Thierry Larcher's** textiles: a setting that expresses the very essence of our inspirations.

Woods

Limited Edition

Expertise: hand-blown glass

The **Woods** collection of scented candles and Totem fragrance diffusers pays homage, in the very structure of its hand-blown glass, to the magic of forests. Trees reach for the sky, and forests bring us back to basics, like a benevolent refuge in which to take walks throughout the seasons. The magic of glass, handled by the dexterity of our craftsmen, breathes life into vertical lines reminiscent of the beauty of nature. Three candle and diffuser designs, each paired with a unique fragrance, are named after mythical forests: Brocéliande, Risoud, and Sherwood.

Sherwood

Made famous by the legend of Robin Hood, the Sherwood Forest is a wonderful world set in the English countryside, where majestic oaks stand like characters out of a Tolkien novel.

The glass of the **Sherwood** scented candle is punctuated with vertical lines resembling majestic trunks reaching for the sky. Deep green, with khaki highlights that sometimes fade into browns or yellows, the candle comes alive with bewitching reflections, releasing a fragrance with resolutely woody, aromatic notes. Rosemary is highly aromatic in the top note but quickly fades to give way to Atlas cedar in the heart note, with a dry vetiver base.

The Sherwood scented candle is also available in 5 l and 2 l Totem fragrance diffusers.

The glass of the bottles, in shades of green, establishes itself in interiors as a unique and majestic decorative object. The woody fragrance of Sherwood Totem diffusers is wonderfully at home in sophisticated, elegant settings.

Limited Edition

Brocéliande

It has often been thought that the forest of Brocéliande, Merlin the Enchanter's holiday retreat, didn't exist. But it does, and it's located in Brittany, in the west of France. Far from the Arthurian legends, this realm is home to the secrets of Breton tales, where knights and fairies fall madly in love at nightfall.

An enchanting fragrance of light aromatic notes emanates from the **Brocéliande** scented candle, like a promising charm. An invitation to daydream, with notes of elemi and vetiver wood that leave a woody trail. This fades to give way to the delicate sensation of dew on tree moss. The glass, with its vertical lines reminiscent of woods, oscillates subtly between gray and lavender, revealing ample refinement.

Brocéliande Totem fragrance diffusers are magnificent objects for scenting your home with the freshness of the woods that remains with each passing season.

Limited Edition

Risoud

Head for the Swiss border and pay tribute to Europe's largest forest: the Risoud Forest. It's a spruce forest, and acts as a natural border between Switzerland and France. It's here that the world's great luthiers seek out their wood to carve the finest instruments.

To make the glass for candles and fragrance diffusers, a glowing ball is dipped in natural pigments that react randomly. It is then delicately covered with another strand of glass, placed vertically.

It's only when the glass is blown that the decoration comes to life, revealing the vertical lines that run through the glass in this collection. The background color, born of contact between molten glass and powdered pigments, evolves according to temperature. Of them all, red remains the most difficult to obtain consistently.

The deep red glass of the **Risoud** scented candles and Totem fragrance diffusers references the richness of precious stones. It takes all the dexterity of Polish craftsmen to ensure this color's harmonious distribution.

Heritage

Limited Edition

Expertise: glass engraving - integrated workshop

We have decided to reissue the engraved glass collection formerly known as High Society, now renamed **Heritage**. This new name reflects our commitment to preserving an exceptional craft, glass engraving, passed down through generations. This art, increasingly rare today, finds new life through this collection which honors the craftsmanship and enduring legacy of the artisans.

A return to the signature design that made our first glass etching collection such a success. A stylized design is placed on the glass in a very modern way. Lines and intersections adorn an object where colored transparency and grooves come to life under the flames like jewels.

The names of these three candles pay homage to the architecture of the great Cistercian abbeys, whose marvelous and inspiring architecture conveys a telluric energy of breathtaking beauty.

Time has taken its toll, as nature reclaims its rights over the stone, making these surroundings more romantic than ever. It's a feeling of inner peace that sets in on the first stroll and stays with us for the rest of the way.

Cernay

Abbaye des Vaux-de-Cernay is a former Cistercian monastery from the XII^e century, located in France, a few kilometers from Paris.

The **Cernay** scented candle is hand-engraved by craftsmen in our workshops, using graphic lines in the great tradition of glass engraving. The glass is first hand-painted with a deep red paint, while retaining its transparency. This transparency is essential to enable the craftsman to see through the lines he is about to engrave.

The glass' red color called for a floral olfactory identity with slightly sweet accents. Top notes of intense and enveloping berry invite us to take an imaginary stroll through the wild ruins of Cistercian abbeys. Then jasmine explodes in the heart note, fresh and lush, only to disappear delicately on a tonka bean base, leaving a warm, woody trail.

Villers

The Cistercian Abbey of Villers-la-Ville is a jewel of Romanesque and Gothic architecture. Founded in 1146, this magical place in Walloon Brabant in Belgium opened its doors to us to create this collection of engraved glass candles.

The floral scent of the **Villers** candle is inspired by a springtime stroll through the ruins of the Cistercian abbey of Villers-la-Ville. Top notes of hyacinth are reinforced by heart and base notes of lily and almond blossom. This gourmet trail gives this candle and its gray engraved glass a delicate, addictive allure.

Painted in our workshop with a transparent gray veil, the glass is then hand- engraved in a graphic decor inspired by Art Deco. We lose ourselves in the object's appearance, where past and present blend in an aesthetic that's both decorative and unusual.

Fontenay

The glass of the **Fontenay** scented candle is hand-engraved in our workshops. An architectural design is etched into the glass, revealing a flame that brings the motif to life.

The color of this candle's glass perfectly matches its woody fragrance. An invitation to introspection and contemplation, the incense top note escapes into space, setting the tone, before giving way to fresh cedar resting on a leathery identity reminiscent of skin fragrances.

Brame

Limited Edition

Expertise: hand-crafted ceramics

All the inspirations for these collections are structured around dreamlike journeys, where the animal kingdom invites itself into our interiors.

Thanks to the remarkable work of our Portuguese craftsmen, the **Brame** collection comes to life in three enamel shades and three enchanting fragrances.

The majestic stag, undisputed master of the forest, heralds the autumn mating season. We celebrate the bellowing of the stag, heard in the clearings at dusk.

The development of this collection began with a drawing by our artistic director. The ceramic craftsmen then hand-sculpted a mold to reproduce the design as closely as possible.

The curves of antlers intertwine to form the abstract decor of a sculptural object.

Artemis

The ceramics for the **Artemis** scented candle were handcrafted by artisans in Portugal.

The intertwined stag horn motif is covered with a glossy terracotta enamel, which catches the light and gives this olfactory object plenty of sparkle.

Inside, near the flames, we discover a dark green matte enamel, in harmony with our brand's signature label.

The fragrance's floral notes reveal a fresh, heady duality. First seduced by the hibiscus top note, we then discover an unusual sophistication with notes of tea and red fruits. This gourmet olfactory identity pays homage, in its complexity, to the Greek goddess whose name it bears - a homage to nature and its wondrous fragrances.

Sylvanus

As a tribute to the sacred forest, the **Sylvanus** candle, named after the Roman god of the forests, embodies the peaceful power of nature.

Handmade in Portugal by ceramists with exceptional skills, its celadon green glaze with subtle reflections evokes the freshness of the woods. The interior is finished in a matte chocolate glaze to match the label.

The ceramic, embellished with raised stag horns, is a true symbol of wild nobility and renewal. Like a unique piece, this candle embodies the perfect balance between traditional craftsmanship and mythological inspiration.

Its aromatic fragrance blends the liveliness of bergamot with the herbaceous bitterness of wormwood, enhanced by the bewitching woody depth of Indonesian patchouli. A fresh, mysterious olfactory signature, like a light-bathed clearing in the heart of an ancient forest.

Limited Edition

Cernunnos

The **Cernunnos** scented candle takes its name from the Celtic god of nature and animals. Handmade in Portugal by artisan ceramists, it is covered with a debossed motif of intertwined stag horns, like an emblem engraved in the material.

Its metallic gray enamel, with its striking brilliance, gives this scented candle a powerful, sculptural presence. Like an assertive scented object, Cernunnos asserts itself with strength and elegance.

In contrast to its mineral appearance, its fragrance reveals a composition of great delicacy: floral and aquatic notes carried by sea salt, papyrus flower and a vegetal moss base. A fresh, refined, almost ethereal fragrance that softens the sculptural appearance of the ceramic, like a breath of vegetation on a forgotten shore.

Between brute force and olfactory poetry, the Cernunnos candle embodies the meeting of wild and subtle worlds.

Rosace

Holiday Limited Edition

Expertise: precious screen printing, applied by hand

Rose windows are circular windows on the facades of cathedrals. Divided into segments by a stone structure known as a "tracery", they are formed of geometric motifs that radiate out from the center, evoking the shape of a flower or a sun. We drew inspiration from this architecture to create our Holiday collection.

Rosace

The Rosace candle pays tribute to Gothic architecture and the spiritual light of cathedrals. Its glass is covered with a precious silk-screen print, where gold and subtle colors draw motifs inspired by medieval rose windows.

Like luminous lace, this refined décor is set against a background of fleur-de-lis, an emblem of nobility and purity.

When the flame is lit, it brings the motif to life in a luminous dance that evokes the Ferris wheels of a fair, or stained-glass windows illuminated by the rays of a winter sun.

Its woody fragrance celebrates the festive season, combining the resinous scent of fir, the enveloping warmth of a wood fire and the elegance of vetiver wood. An olfactory identity that awakens childhood memories, fireside gatherings and winter magic.

The Rosace collection is also available as a 500 ml fragrance diffuser. The glass is covered with the same festive 24-carat gold silk-screen print, inspired by cathedral rose windows.

Céleste

Limited Edition

Expertise: precious screen printing, applied by hand

The inspiration for this candle came from an aesthetic and spiritual encounter with the Krakow Cathedral in Poland. Entering the cathedral by chance, we discovered a neo-Gothic and Renaissance architecture of breathtaking beauty. Midnight-blue vaults, carved woodwork, Baroque paintings. Filled with the emotion of the reopening of Notre-Dame de Paris, this moment of grace made us want to share this celestial vault, conducive to meditation and introspection.

A fragrance can be a vehicle for intense meditation, and when it becomes the soul of a decorated object, then magic is revealed.

Céleste

The **Céleste** candle and fragrance diffuser are decorated with a 24-carat gold and deep blue silk-screen print, recalling the architecture of the Krakow Cathedral's celestial vault.

The design is an interpretation of the nave: an ogival ceiling, painted on a blue background and studded with small golden stars. The decor is placed around the glass like imaginary doors opening to the sky.

More profane than religious, the aesthetic of this olfactory object takes us on a journey into the discovery of a fragrance whose woody incense notes invite meditation. Cedarwood and amber then anchor the fragrance in a wonderful woody identity, ideal for winter evenings when daylight is scarce.

The flame enlivens the setting and suggests a reverie, drawing us into a desire for spiritual connection.

Pierre Marcolini

Limited Edition

Expertise: precious screen printing, applied by hand

The two Belgian luxury houses, **Baobab Collection** and **Maison Pierre Marcolini**, join forces to celebrate their shared values: creating exceptional products from mastered craftsmanship and unique terroirs.

On the eve of the 30th anniversary of the Maison Pierre Marcolini, the idea of celebrating this anniversary with light took shape. Three candles have been co-created: three candles whose history, both in their decorations and their fragrances, will take you on an olfactory and aesthetic journey to exotic destinations, where the precious cocoa beans are harvested.

Make way for India, Peru and Madagascar, and discover the terroirs of the region.

The master chocolatier shared his journey with us: that of the precious beans he has been sourcing for three decades from exceptional terroirs. He described the ecosystem in which the beans grow, and we conducted research with our perfumers to find the major accords for this collaboration: Indian rose, Madagascan vetiver, Peruvian citrus and jasmine. Three fragrances were created, according to the olfactory memory of Pierre Marcolini and his favorite ingredient: cocoa beans.

Pierre Marcolini boutiques will offer the three candles – **Inde**, **Pérou**, and **Madagascar** – available individually in the My First Baobab format, as well as in a “Travel Trio” gift set featuring the three candles in mini format.

For its part, Baobab Collection will spotlight the **Pérou** candle by offering it in all its formats – My First Baobab, Max 10, Max 16, Max 24, and Max 35 – available in stores, on the website, and at specific retailers.

Pierre Marcolini

Limited Edition

Inde

We're transported into a profusion of colors, meeting the women of Kerala in their multicolored saris. Along the roads, the scent of roses mingles subtly with that of fruit.

The glass decoration of **Inde** candle pays homage to India and the beans from this land that Maison Pierre Marcolini harvests throughout the seasons. A figurative design of colorful pods is an interpretation of this Kerala environment, subtly recalling the dresses of Indian women carrying baskets filled with flower petals.

The fragrance wafting from the precious screen-printed glass is a tribute to the gourmet rose that blooms not far from the cocoa fields.

The heart note is lychee, which lends a sweet, liquor-like quality to the Indian rose. The base note is musk, giving this fragrance a sophisticated, distinctive identity. The fragrance reveals very different facets when cold and warm, first revealing its powdery softness and sensuality, then all its spicy richness in the heat of the flame.

The decor comes alive under the flame, and you're immediately transported to this exceptional terroir where materials come together to create a magical experience that awakens all of your senses.

Madagascar

Madagascar's red earth allows the rarest species to flourish. The island is an immense garden where flora and fauna cohabit in harmony. The Ambanja region is home to cocoa plantations in the north of the island, in the province of Diego Suarez. Mangrove, ylang-ylang and vetiver form the ecosystem of this sacred land.

To create the fragrance for Pierre Marcolini's candle dedicated to **Madagascar**, we decided to take a woody rather than floral route, highlighting vetiver wood.

The result is surprisingly sophisticated, almost like a perfume you'd want to wear. When cold, the fragrance reveals floral nuances; however, it reveals all its power when lit, and it's then that vetiver wood explodes on a slightly peppery base. The spicy roundness of this candle's fragrance is further enhanced by the patchouli wood heart note.

To create the Madagascar decor, in collaboration with Maison Pierre Marcolini, we wanted to work with a black and gold design, echoing the shapes of cocoa beans in an unusual composition. It was important to keep the black color, which lends strength to the décor, to recall the color of chocolate and the mysteries of an African land.

Pierre Marcolini

Limited Edition

Pérou

We land in Lima, the kingdom of ceviche and fruity citrus flavors. We discover the folk costumes of Peruvian women in multicolored petticoats, topped with pretty hats worn over braided hair. We admire Mario Testino's photographs in his extraordinary museum, with its pure architecture, where only a few golden mouldings break up the immaculate white decor. We marvel at everything and set off in search of the rarest criollo beans in the world in the Piura region.

The **Pérou** scented candle pays tribute, through its screen-printed design, to criollo beans harvested exclusively in Peru, recognizable by their unique whiteness that gives Pérou dark chocolate the appearance of milk chocolate. A rain of white and gold beans is deposited on the glass, creating a highly decorative and precious effect. In its whiteness, this pattern is reminiscent of the very structure of these beans.

The fragrance is the ambassador of Peruvian flavors, but also the guardian of an ecosystem where jasmine flourishes alongside cocoa trees. The cold fragrance references the freshness of lime, highly representative of Peruvian cuisine and its famous ceviche. When lit, the fragrance retains all its freshness while revealing the rather dry vetiver wood, which also reinforces this sensation. The floral identity of jasmine appears only in glimpses, in a very green, aromatic effect.

Sacred Trees Permanent Collection

For every Sacred Trees item purchased, Baobab Collection and the Cœur Vert Foundation replant Baobab trees in Africa.

Journey to the heart of Africa and immerse yourself in the history of its sacred tree: the baobab. These giant trees, as majestic as they are imposing, are linked to mankind and African history. In Africa, it is said that man cannot survive without them. It is the only tree whose trunk can be dug out and filled with water without dying or rotting. As well as being the source of a precious beverage, it houses the souls of ancestors in its roots. It flowers every spring, producing a fruit whose pulp is six times richer in vitamin C than other fruits. Its seeds are also harvested and pressed to obtain a beneficial oil.

Following the success of our **Sacred Trees** collections in previous seasons, we've decided to make this collection a permanent edition, with a revamped design and new colors on the glass of scented candles and diffusers.

5% of sales from this collection will be donated to the **Cœur Vert foundation**. Recent editions have already enabled the company to participate in a reforestation program in the northern Worodougou region of Côte d'Ivoire, planting 30,000 trees, including more than 20,000 baobabs during the summer months of 2023 and 2024, as well as creating a vegetable garden.

The reforestation program in the summer of 2025 will enable us to plant 25,000 trees and to continue supporting the creation of vegetable gardens. As a reminder, these vegetable gardens, called «Les Jardins de Baobab Collection», enable the emancipation of women in rural communes and the improvement of their social status. This program enables us to base our actions on community and social responsibility.

The Cœur Vert foundation, accredited by the UN and supported by the Ivorian government, is dedicated to protecting the environment. Its main activity is reforestation, as part of the Great Green Wall of Africa initiative. Our collaboration is part of the international reforestation program organized by the Cœur Vert foundation every summer, where 250 young people from all over the world join the reforestation zone, 500 km from the capital Abidjan.

We would like to thank Uniwax for the new baobab designs and colors.

For every **Sacred Trees** candle or fragrance diffuser purchased, baobab trees are planted.

Sacred Trees

Permanent Collection

Expertise: sublimation on glass

The **Sacred Trees** collection is now permanent, featuring three new colors and three fragrances that bring together the scents that have made it successful over past seasons.

The glass decoration is crafted in Italy using a sublimation technique that, despite applying the design, preserves the transparency of the material and allows the flame to be seen. The design, printed with natural pigments, is applied around the glass and adheres to the surface through a fusion method. This artisanal process is patented. Thus, when the Mankono, Touba, and Bounkani candles are lit, the design comes to life and stands as an olfactory object charged with spirituality.

A perfect trilogy to write a new chapter for a collection that has become iconic for our brand, anchoring our social initiatives in Africa in lasting commitment.

Mankono

The **Mankono** scented candle is named after the region in northern Côte d'Ivoire where we pursue our social and ecological actions.

Its glass is adorned with an exclusive print, designed by the artists at Uniwax - the emblematic house of African textile printing - which sits harmoniously on the glass, while coming to life under the flame thanks to the expertise of sublimation.

The brown and saffron yellow tones of the design on the glass are in perfect harmony with the woody, spicy fragrance. The candle becomes an ethnic decorative object, in keeping with our brand DNA.

Bewitching notes of cinnamon, almond and cedarwood create a warm, comforting atmosphere, an olfactory invitation to a sensory journey into the heart of West Africa.

Also available as a 500 ml fragrance diffuser, with natural rattan fiber sticks, the Mankono indoor diffuser is a beautiful olfactory object that diffuses a spicy fragrance of cinnamon, almond and cedar wood throughout your home.

Permanent Collection

Touba

Touba is a department of Côte d'Ivoire, in the Woroba district. We pay tribute to the regions in which we support the Cœur Vert foundation and its ecological actions, which are part of the ambitious Great Green Wall of Africa project.

The baobab design, created by artists at the wax fabric printing company Uniwax, has been colored in shades of deep green and gray lilac. This figurative design reveals a lush baobab forest, where flora and fauna flourish in harmony.

A fragrance of verbena, lavender and cedarwood is subtly diffused throughout the room. This citrusy composition is a tribute to the freshness found in the African savannah during the rainy season, which also marks the time when baobabs are planted by the Cœur Vert foundation.

The **Touba** fragrance diffuser, available in 500 ml, is also decorated with a sublimation of majestic baobab trees created by Uniwax. The olfactory experience of a diffuser complements that of a candle, bringing a slow, delicate restitution to an interior. The citrus fragrance of the Touba diffuser leaves a trail of fresh, aromatic verbena notes.

Permanent Collection

Boukani

Inspired by the vibrant lands of the Boukani region of Côte d'Ivoire, the **Boukani** scented candle embodies the soul of a land rich in traditions and contrasts.

The decor, which pays tribute to the majestic baobab trees, was designed by artists from Uniwax in Abidjan, with whom we have been working since the creation of our social and environmental partnership with the Cœur Vert foundation. The scented candle and its 500 ml Boukani fragrance diffuser have become decorative objects in their own right and essential pieces in our collections. The design, in yellow on a gray background, is probably the most spring-like in this collection.

The contrasting fragrance releases powerful, green notes of fig and hazelnut leaf, with an irresistibly seductive sandalwood base.

Both an art object and an olfactory voyage, the Boukani candle and scented diffuser embody the union of contemporary design and African cultural heritage, for a singular sensory experience.

Holiday Gift Boxes

Holiday Limited Edition

The art of gifting

This winter, we wanted to package our iconic candles in gift boxes, to offer a unique olfactory journey in smaller formats.

Gift boxes of two or three candles, covered in elegant gold sleeves, make the perfect holiday gift.

The candles that have made our brand so successful and symbolize our expertise are back, with the **Pearls** collection, in hand-blown glass, and **Les Exclusives**, sublimated by precious metallization on the glass.

Duo Gift box Les Exclusives

In a magnificent gift box, covered with a gold-printed sleeve, two small candles with metallic glass from our Les Exclusives collection form an irresistible duo, to give or to treat yourself.

The spicy fragrance of **Platinum** and the floral scent of **Aurum** are a perfect match to enchant your home for the holidays.

Duo Gift box Pearls

The iconic **Black Pearls** and **White Pearls** candles are produced in Max O8 format and come in a precious gift box covered in gold and white packaging. A wonderful gift to give or to treat yourself, to rediscover our brand's greatest olfactory successes.

Trio Gift box Pearls

Available in Max O8 format, the iconic candles from our Pearls collection are coming together this winter in a gift box. **White Pearls**, **Black Pearls** and **Coral Pearls** form a colorful trio of unique, precious hand-blown glass candles. Their fragrances are complementary, offering a unique olfactory experience.

Holiday Gift Boxes

Holiday Limited Edition

The art of gifting

The «Travel Trio» gift sets in our **My First Baobab** line are enriched with two limited editions this winter. Covered with a drawing of hot-air balloons, these little boxes contain, in a delicate drawer, three Max 06 candles: an olfactory and aesthetic voyage.

Adorned with beautiful 24-carat gold silk-screen prints and festive colors, we're issuing a boxed set celebrating the holidays, featuring the decorations of our festive candles issued in 2023 and 2024.

Pierre Marcolini's **Inde**, **Madagascar** and **Pérou** candles will also be produced in this small format, offering an olfactory journey through the lands where the precious cocoa beans are harvested.

Holiday Travel Trio set

In a delightful box decorated with hot-air balloons - the signature design of the Travel Trio line - three small candles decorated with silk-screened prints are placed with one and the same fragrance: the resinous scent of December festivities, with scents of fir, wood fire and vetiver.

The decorations repeat the successes of Winter 2023 and 2024, with the **Afrika** and **Caravane** mini candles, which join our new and festive winter mini candle also available in large formats: the **Rosace** candle.

Pierre Marcolini Travel Trio Set

The limited-edition candles, in collaboration with the famous Maison Pierre Marcolini, come in a small trio format, in a chocolate-colored box decorated with hot-air balloons. The **Inde**, **Madagascar** and **Pérou** mini candles come together and pay tribute, through their fragrances, to the exceptional terroirs where the beans are harvested.

My First Baobab

Winter in Marrakech

Expertise: precious screen printing, applied by hand

Following the success of our Moroccan collection and the **Marrakech** candle, we've decided to add this destination to our My First Baobab collection of travel candles.

The gates of the Marrakech medina are drawn on the glass of the candle and diffuser, in a colorful and precious interpretation. We wanted this silkscreen to capture the fascinating colors of Marrakech's palace decorations, as well as the fine ceramic or stucco designs of the city's emblematic monuments. Like lace, the motifs stand out from the doors, forming refined volutes.

The fragrance, with its floral identity of orange blossom, reveals in the heart notes the leathery scents of the tanners' souks, and the woody notes of patchouli that escape from the stalls of the Marrakech's Spice Square.

I Love Ski

Limited Edition

Expertise: precious screen printing, applied by hand

Plunge into the heart of the snowy peaks with the new edition of the I Love Ski candle, an elegant ode to the alpine world. Its refined glass is enhanced by a silk-screen print in gold and bright colors, illustrating charming mountain chalets nestled in a wintry landscape. It's fun to watch the little skiers on the glass, the golden fir trees, and the chairlift that seems to come alive under the light of the flame.

I Love Ski

Its delicate fragrance envelops the space in a fresh breeze, suggesting that the snow-capped peaks will soon give way to a magnificent coat of vegetation. Green notes of fig leaf intertwine with the powdery softness of iris, while a base of white musk adds a touch of sensuality and depth.

An olfactory and visual voyage of elegance, nature and the art of high- altitude living.

Citrus

An olfactive family dominated by scents mainly composed of hesperidic notes and citrus zests such as bergamot, lemon, orange, tangerine or grapefruit. Citrus essential oils, more fragile than other perfumery raw materials, are obtained by cold expression of the peel.

Touba

Aromatic

The term «aromatic» refers to all fresh herbs. The aromatic family includes lavender notes (lavandin, thyme, rosemary, sage), minty notes and anisic notes (basil, tarragon).

Brocéliande

Sylvanus

Pérou

Amber & Spices

The perfumes of the ambery family are composed of a classic accord generally made up of tonka bean, vanilla, coumarin, labdanum and patchouli. There are also resins such as benzoin, frankincense or opoponax. Spices are very often accompanying ambery scents, dressing them up wonderfully.

Green

The green family is defined by the recognizable smell of crumpled leaves, cut stems, fresh and dewy grass. It also includes the green watery or bitter facets coming from juicy fruits (blackcurrant, rhubarb). Green notes offer dynamism, cheerfulness and naturalness to a scent.

Bounkani

I Love Ski

Floral

The floral family is certainly the richest and largest olfactive family. Either figurative or abstract, floral facets are very numerous, and differ greatly from each other. Main representations are white flowers (jasmine, orange blossom, tuberose) rose and powdery notes (rose, violet, orris) or green florals (lily of the valley).

Cernunnos

Woods

In the woody family, one wood may predominate, but it is most often a combination of several woody notes. Woody notes are reassuring, structured and nervous notes, giving the fragrance a backbone. The main natural woody notes are cedarwood, sandalwood, vetiver, patchouli, pine and cypress.
